love being paid to learn

People work at McDonald's® for many different reasons . . . to earn cash after school, kick-start a hospitality career, get business qualifications, or even to get back into the workforce after a career break.

Whatever your reason is, it's good to know you're joining a company that wants you to succeed. From day one, you're working towards national qualifications and a range of career opportunities that will help you to further your career and be recognised in the hospitality industry.

McDonald's has worked hard to gain formal recognition by HSI around NCEA and NZQA accreditation.

Wherever you see your future, working with New Zealand's most successful quick-service restaurant business is a positive step in the right direction.

If you would like to further your career today with McDonald's apply online at . . .
